WHY UNDERTAKE A COVID-19 SKILL SET

The COVID-19 pandemic gripping Australia has caused individuals and organisations to rethink their infection prevention and control procedures. These new skill sets recently released by the Australian Government with the support of the NSW Department of Education and Training ensure access for employers, their employees and other individuals to the latest guidelines and skills in relation to the prevention and control of bacteria and other infectious contaminants.

As we move forward in our daily lives living with the potential for virus spread, our clients and customers will become more conscious of those organisations and individuals who have taken appropriate action to keep their environments as free from bacterial spread as possible.

FEE FREE SKILL SETS – FUNDED BY NSW GOVERNMENT

HLTSS00064 Infection Control – Health & Community Services

National Code: HLTINF001 Comply with infection prevention and control policies and procedures

HLTSS00065 Infection Control – Retail

National Code: HLTINFCOV001 Comply with infection prevention and control policies and procedures

HLTSS00066 Infection Control – Food Handling

National Code: HLTINFCPOV001 Comply with infection prevention and control policies and procedures

DELIVERY MODE

These skills sets are presented as an on-line program combined with workplace assessment. Once enrolled, students will be provided with access to the AEATS online delivery platform and will work their way through a series of learning and assessment tasks. The module has been designed to be a fun, interactive learning experience which can be accessed from personal computers or mobile devices.

The final component of the assessment is to ensure that students can apply their learning in the workplace. For this reason, you must have access to a workplace and someone who supervises your work where you undertake infection control procedures. It is estimated that this unit will take approximately 4-5 hours of formal learning online which can be completed flexibly within your own time requirements.

ENROLMENT & STUDY PERIODS

ENROLMENT PERIOD 1

Enrolment: You must enrol between 12th July & 30th September 2020

Commencement: You may commence your study module once you have been enrolled

Completion: You must have fully completed your study module by 23rd October 2020.

ENROLMENT PERIOD 2

Enrolment: You must enrol between 1st October & 10th December 2020

Commencement: You may commence your study module on or after the 1st November 2020

Completion: You must have fully completed your study module by 10th December 2020.

THERE ARE LIMITED PLACES AVAILABLE

COURSE OVERVIEW

HLTSS00064 Infection Control – Health & Community Services

National Code: HLTINF001 Comply with infection prevention and control policies and procedures

HLTSS00065 Infection Control – Retail

National Code: HLTINFCOV001 Comply with infection prevention and control policies and procedures

HLTSS00066 Infection Control – Food Handling

National Code: HLTINFCPOV001 Comply with infection prevention and control policies and procedures

The above skill sets underpin the required Nationally Accredited units of competency that industry have aligned to it. These units describe the skills and knowledge required to follow organisational infection prevention and control procedures, including implementing standards and transmission-based precautions, and responding to infection risks. The three individual skill sets outline the context to which the learning and assessment should be made, these being Health and Community Services, Retail and Food Handling environments.

Skills Learned:

- Follow standard and additional precautions for infection prevention and control
- Identify infection hazards and assess risks
- Follow procedures for managing risks associated with specific hazards

FEE FREE ENROLMENT CONDITIONS

Applicants seeking to enrol must meet the following criteria:

- Be 16 years or older
- Have successfully completed year 10 of secondary school or equivalent or be of mature age.
- Be able to use and respond to written language, including some unfamiliar material in a variety of contexts.
- Provide photo identification & Medicare card
- There are no prerequisite units of competence
- Have access to a valid workplace and supervisor for assessment purposes.
- Have a primary place of residence within NSW.
- Must be an Australian Citizen /Permanent Resident /New Zealand Citizen or hold a Humanitarian visa.
- Be able to supply a valid USI (This can be obtained online)

FEES

These Skill Sets are funded under the NSW Government Smart & Skilled program:

Course Fee: \$0 - Fees are calculated on the NSW Smart & Skilled Fee Policy 2020.

COURSE ASSESSMENT

Methods of assessment cover a range of evidence gathering including written questions and answers, simulated work place scenarios, observations and supplementary evidence provided by third-party reports from supervisors within your workplace.

HOW TO APPLY

The AEATS team will provide you with an Enrolment Form, this Course Guide, and the Student Handbook. Return your completed application along with photo identification, Medicare card and any additional evidence required.

Once received, an AEATS team member will discuss with you your individual needs and the course in which you are enrolling. Once we have successfully collected and processed your documentation successfully you will receive a confirmation of enrolment and access to your online learning module.
